TM Clinical
Education

Nobel
BiocareTM

Professional development is a journey, not a destination. Nobel Biocare is committed to helping you advance on your path to fulfilling your professional ambitions. For clinicians and dental professionals at any stage of their implantology journey, we offer progressive courses in dental education – both in-person and online – as well as industry events and on-demand resources.

Every year, over 62,000 professionals attend dental implants courses and other training through Nobel Biocare.

We invite you to explore educational opportunities from our global LEADers.

Course levels

Fundamental course

Surgical and prosthetic procedures in straightforward cases to achieve predictable esthetic and functional outcomes. Includes: implant dentistry certification programs, diagnostics and treatment planning, conventional/two-stage implant surgery.

Advanced course

More advanced surgical and prosthetic procedures, building on fundamental skills. Includes: hard and soft tissue management, Immediate Function, graftless solutions and full-arch rehabilitation.

Expert course

Challenging situations using advanced treatment planning and complex surgical and prosthetic procedures. Requires significant experience in placing implants. Includes full-arch rehabilitation with high maxillary resorption and complex grafting.
