

THIS IS  
PID ESTHETIC GROUP

Founded in 2006

## Knowledge changes everything

### **Change is coming.**

Dentistry has evolved and female dental professionals are leading the way more than ever before. In the Nordics, more than 75% of all graduating dentists are women.

Although dentistry is a great place for women to build a successful career, there's still a lot of untapped potential for female leadership in the field.

Our vision has always been to build and grow a global network for female dental professionals. A place where female dentists and technicians can empower each other to grow. By being colleagues, friends, role models and mentors for each other, we can unlock the potential of each and everyone in the group.

Since 2006, Esthetic Group has been an established network with local groups all over Nordics. The groups consists of dedicated female dentists and dental technicians engaged to develop within the field of implant dentistry.

**We can change the future of dentistry. Let's do the journey together.**

**Jutta Roberts**  
**Esthetic Group Founder & Manager with Team**

# Why join PiD Esthetic Group?

## Voices of PiD Esthetic Group

*For me as a solo practitioner, the Esthetic Group has meant a lot to me both professionally as well as for my social self-confidence. This group and the membership sharpens the quality of my work and a desire to be updated on the newest information within dentistry.*

**Susanne Berglund, Member since 2006, Dentist, Sweden**

*Our meetings and courses have been inspiring both professionally and socially. I think it is a strength that we have the cooperation with dental technicians. It has convinced me that the professional challenges and development is a lifelong project.*

**Kirsten Alberg, Member since 2008, Dentist, Denmark**

*I have been a member of Nobel Biocare Esthetic Group almost from the very beginning. I have been travelling with the group, attended courses and lectures both in Sweden and abroad and as a Oral and Maxillofacial Surgeon I have also been giving courses for the group. Nobel Biocare Esthetic Group has meant a lot for me throughout the years." Jutta is an enthusiastic leader of the group and when we are together her enthusiasm is transferred to all of us in the group.*

**Annika Skoglund. Member since 2006, Oral and Maxillofacial Surgeon, Sweden**
