

Surgical Handpiece Zygoma

Product overview

nobelbiocare.com/drillunits

The solution for zygomatic implant application, offering ease of access to treatment sites, safe and effortless handling, and local cooling

Designed for easy access to treatment site

The angulation of the handpiece is designed for optimized access in complex procedures in the zygomatic arch area.

Safe handling

The 20:1 handpiece with contra-angle chuck system combines safe handling with high concentricity.

Effortless handling

The ergonomic design of the handpiece ensures fatigue-free handling.

Local cooling

The external cooling spray emerges at the tip of the instrument and cools the surgical site.
