PureSet™

PureSet sets for freehand and guided surgery are available for NobelActive, NobelParallel CC, NobelReplace CC and Nobel Biocare N1 system.

The PureSet sets NobelSpeedy Groovy, Brånemark System, Replace Select TC and NobelZygoma are available for freehand surgery.

For even greater efficiency during freehand surgery, two of Nobel Biocare's leading implant systems – NobelActive and NobelParallel CC – can both be stored in a single tray, requiring fewer instruments, thanks to their similar drilling protocols.

Ease, speed and hygiene, all-in-one with PureSet

STRAIGHTFORWARD AND INTUITIVE LAYOUTS

Designed to reflect surgical workflows and make the components easy to identify

SECURE RETAINMENT OF INSTRUMENTS

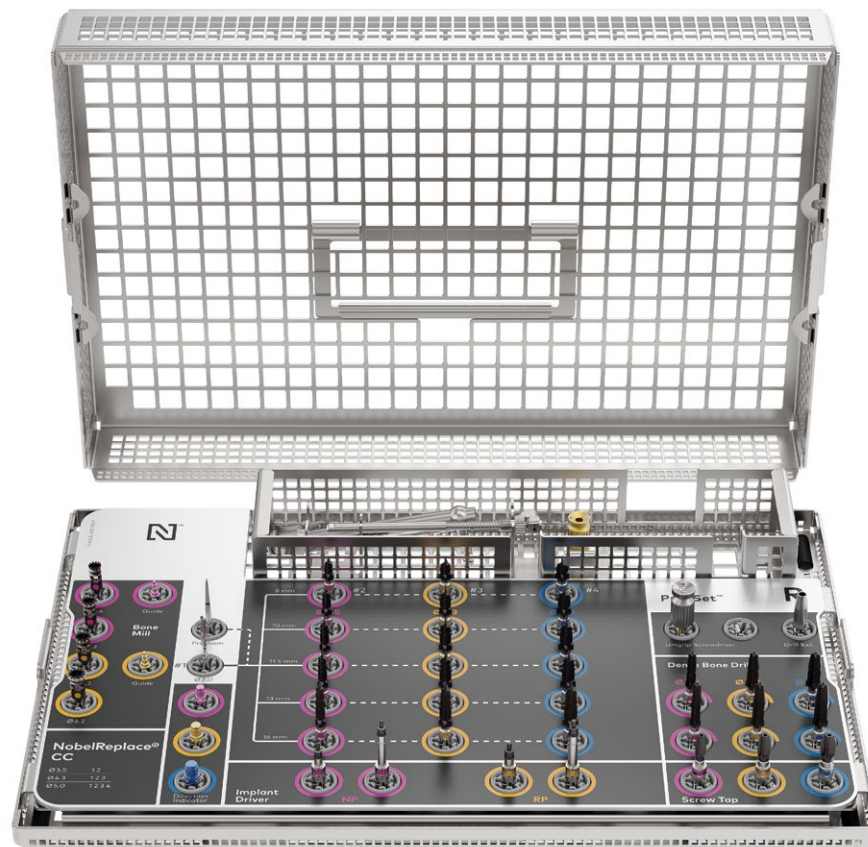

Surgical instruments are contained and secured using special metal springs

UNCOMPROMISED HYGIENE

PureSet Trays are made of stainless steel¹ and designed for automated cleaning with few manual steps

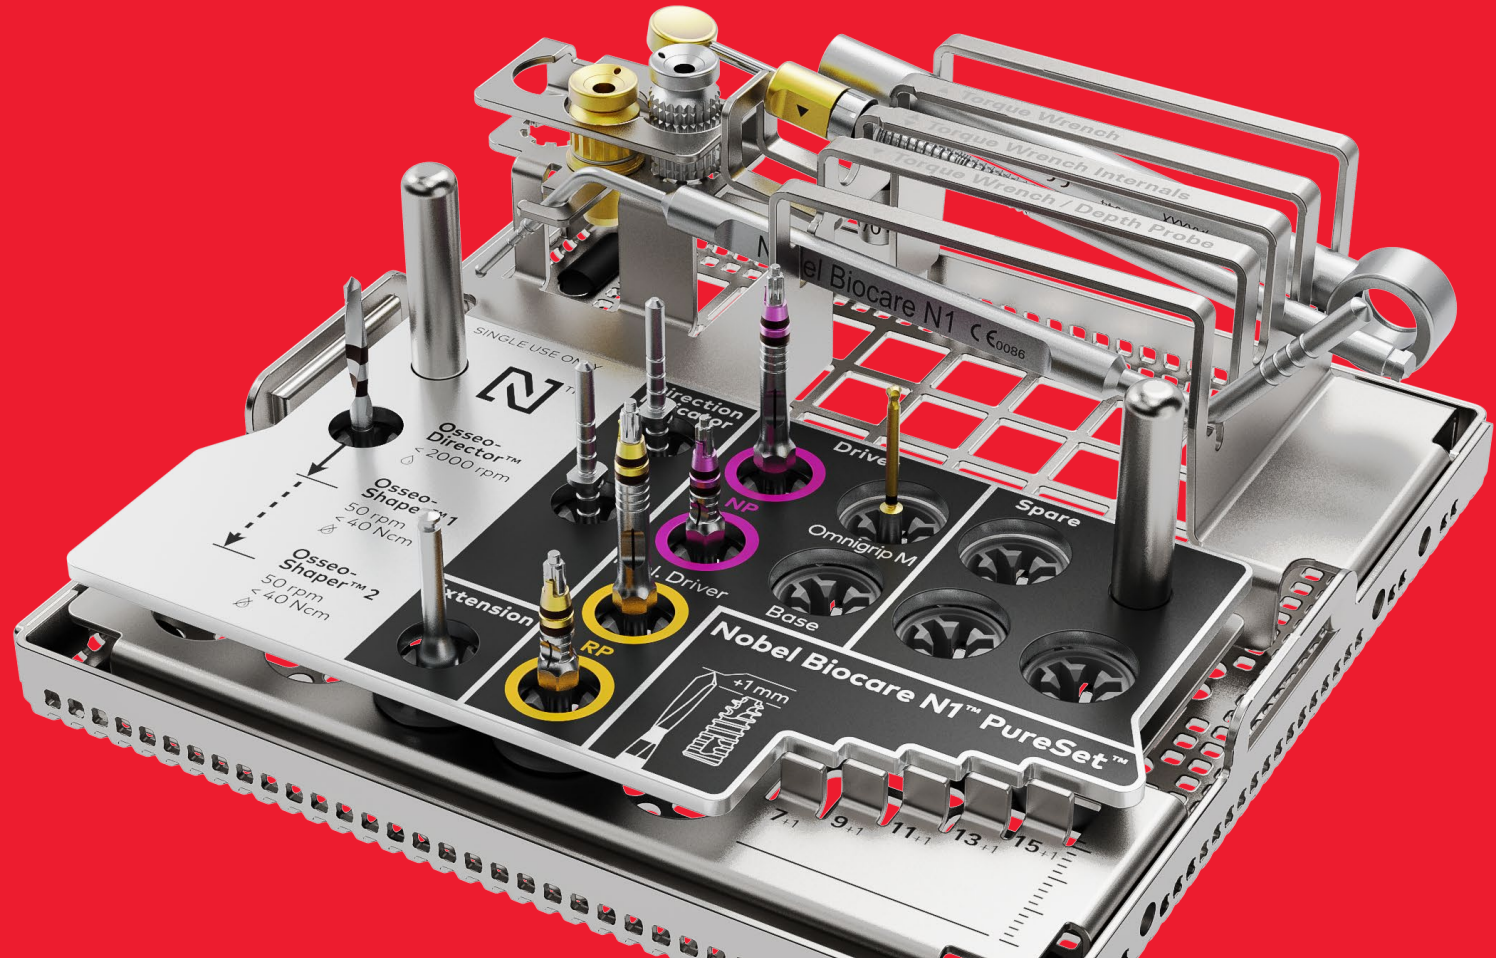

SIGNIFICANT TIME SAVINGS

Significant time savings as tray and instruments remain together during cleaning and sterilization

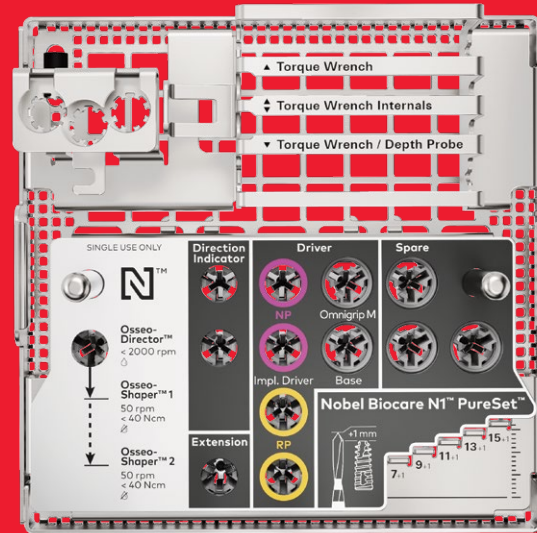

¹ PureSet Trays are made of stainless steel except for the PureSet plates and grommets.
