

Dental implant pass

Congratulations on your new teeth!

This dental implant pass contains important information on your dental implants manufactured by Nobel Biocare. Our worldwide network of leading dental professionals ensures that, with this dental implant pass, dental professionals all over the world can easily get an overview of your dental implant treatment.

By the way, regular check-ups at the dentist make sure your new teeth and gums stay healthy and you can enjoy life to the fullest – whether on holiday or at home.

This dental implant pass belongs to: _____

Clinical excellence you and your dentist can rely on

To offer you dental implant treatment of the highest quality, your dentist decided to work with Nobel Biocare, one of the leading manufacturers of dental implants.

Already in 1965, the world's first dental implant patient, Gösta Larsson from Sweden, was treated with Nobel Biocare implants. Since then, millions of patients all over the world have been treated successfully.

[nobelbiocare.com](https://www.nobelbiocare.com)

This is made possible by Nobel Biocare's close collaboration with leading experts around the globe, continuous training for dentists and dental laboratories as well as over half a century of research and constant innovation.

Contact your dentist for any questions you might have on Nobel Biocare products.

Your dentist uses original Nobel Biocare products for your treatment. Nobel Biocare offers dentists a lifetime warranty on dental implants and a 5-year warranty on your NobelProcera restoration. To learn more about the Nobel Biocare Warranty Program, please visit [nobelbiocare.com/warranty](https://www.nobelbiocare.com/warranty).
