

4

**reasons**  
to start  
with the All-on-4®  
TREATMENT  
concept

**WE FOLLOW NO  
ONE.**

# All-on-4<sup>®</sup> treatment concept

The original graftless  
full-arch solution  
on four implants

1

## Teeth in a day<sup>\*1, 2, 3</sup>

Immediate Function for patients meeting criteria for immediate loading of implants.

2

## One surgery

Graftless procedure for shorter treatment time and reduced costs, compared to conventional full-arch treatments.<sup>4</sup>

3

## High survival rates

High survival rates with up to 18 years' follow-up in the mandible and 13 years in the maxilla.<sup>5, 6, 7</sup>

4

## Grow your practice

The All-on-4<sup>®</sup> treatment concept offers your patients immediate improvement in eating, chewing comfort, esthetics and speech. 95% of patients are satisfied with their new teeth.<sup>8</sup>

\* If patient criteria are met and adequate stability achieved – all our implants can be loaded with a fixed provisional restoration on the day of surgery.

# Quick facts

Many have tried to mirror this ground-breaking concept, but only Nobel Biocare has the scientifically documented success to back it up.

**Just 4**

implants for high primary stability

**98%**

mean implant survival<sup>9,\*</sup>

\*based on 44 studies

**+250,000**

of patients treated<sup>9</sup>

**18**

years of documented clinical success<sup>5,9</sup>

up to **12**  
years of mean follow-up<sup>5,9</sup>

# From our experts

**"The high implant and prosthetic survival rates of the All-on-4<sup>®</sup> treatment concept make it a safe and predictable surgical protocol from both the clinician's and the patient's point of view. Clinicians should adopt this treatment concept in their daily practice to avoid demanding and time-consuming additional surgeries." - Ana Ferro**

# For the most demanding esthetics

The All-on-4<sup>®</sup> treatment concept is now available with the new NobelProcera<sup>®</sup> Zirconia Implant Bridge

## Made for esthetics

Achieve natural looking restorations with our new DOCERAM Nacera<sup>®</sup>

Pearl zirconia material, available in 10 VITA shades.

Use angulated screw channel to improve buccal access.\*

\*only available for conical connection implant level and Multi-unit Abutment restorations

## Cement free

Smaller angulated screw channel with new Omnigrip Mini Screwdriver provides improved occlusal esthetics.\*

Reduce complexity and save time by eliminating the bonding procedure.

\*25% smaller screw channel diameter area compared to angulated screw channel for conical connection

## Extensive flexibility

Available in full contour, cut-back, thimble and framework with or without soft tissue.

NobelProcera guarantees a 100% inspection to ensure a passive fit against your digital design.

# Learn from the pioneers

To develop the knowledge and skills needed to achieve the best possible results with the All-on-4<sup>®</sup> treatment concept, you need to learn from the best. Nobel Biocare offers a range of dedicated courses covering everything from the fundamentals, to advanced procedures. Courses are held by renowned clinicians at locations all over the world.
