Let us provide you with a clinically proven, tried and tested implant system to improve your reality and take your practice to the next level.¹,²

Real-world evidence is reality²
- Real patient data, no exclusion criteria
- Real life – consecutive patient inclusion
- Real long-term results

Real-world data is key evidence of NobelActive TiUnite’s true long-term success for patients. That is why three of the first ever NobelActive users carried out a retrospective study, showing the reality of success they achieved from the very start.²

Promotes osseointegration\textsuperscript{5,6,7}

\textsuperscript{5} TiUnite\textsuperscript{®} supports osseointegration and helps maintain high stability throughout the healing phase.

Consistent long-term bone and soft tissue maintenance\textsuperscript{6}

\textsuperscript{6} The back-tapered coronal design, built-in platform shifting and conical connection have been designed to optimize bone and soft tissue volume.

Excellent primary stability and survival rates when placed in soft bone\textsuperscript{2}

\textsuperscript{2} Parallel drilling protocol is combined with tapered body and bone condensing thread design.

Proven clinical success when placed in extraction sockets\textsuperscript{2,3}

\textsuperscript{3} Thread design and apical drilling blades help achieve high primary stability in compromised bone.

Proven survival after implant repositioning\textsuperscript{2}

\textsuperscript{2} Reverse-cutting flutes with apical drilling blades allow experienced clinicians to adjust and optimize implant position, especially in extraction sockets.
“The design of the implant gave me, intuitively, a lot of confidence that I would be able to do things that I wasn’t able to do previously.”

Dr. Daniel Cullum, Idaho, US
For even greater efficiency, two of Nobel Biocare’s leading implant systems – NobelActive and NobelParallel™ CC – are both stored in just one single tray, requiring fewer instruments.
The NobelActive PureSet™ is available for freehand and guided surgery.
ORDER ONLINE
Order our complete range of implants and prefabricated prosthetics 24 hours a day through the Nobel Biocare online store.
