Accessori

Accessori PureSet Tray

PureSet™

I set PureSet per la chirurgia guidata e a mano libera sono disponibili per NobelActive, NobelParallel CC, NobelReplace CC e il sistema Nobel Biocare N1.

I set PureSet NobelSpeedy Groovy, Brånemark System, Replace Select TC e NobelZygoma sono disponibili per la chirurgia a mano libera.

Per ancora maggiore efficienza durante la chirurgia a mano libera, è possibile riporre all'interno di un singolo vassoio due dei sistemi implantari leader di Nobel Biocare – NobelActive e NobelParallel CC – senza richiedere un numero maggiore di strumenti, grazie ai protocolli di fresatura simili.

Semplicità, velocità e igiene, tutti insieme grazie a PureSet

LAYOUT DIRETTI E INTUITIVI

Progettato per rispecchiare i flussi operativi chirurgici e agevolare l'identificazione dei componenti

MANTENIMENTO SICURO DEGLI STRUMENTI

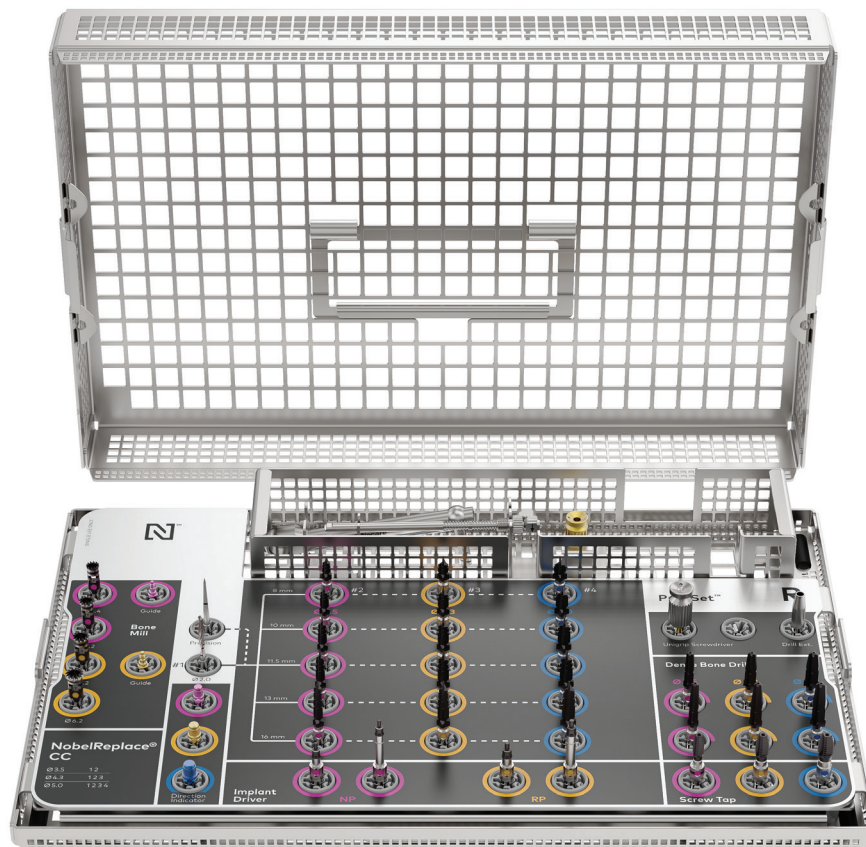

Gli strumenti chirurgici sono conservati e messi in sicurezza mediante molle metalliche

IGIENE SENZA COMPROMESSI

I PureSet Tray sono realizzati in acciaio¹ e progettati per la pulizia automatica, con pochi passaggi manuali

RISPARMI DI TEMPO SIGNIFICATIVI

Risparmi di tempo significativi, poiché il vassoio e gli strumenti rimangono insieme durante la pulizia e la sterilizzazione

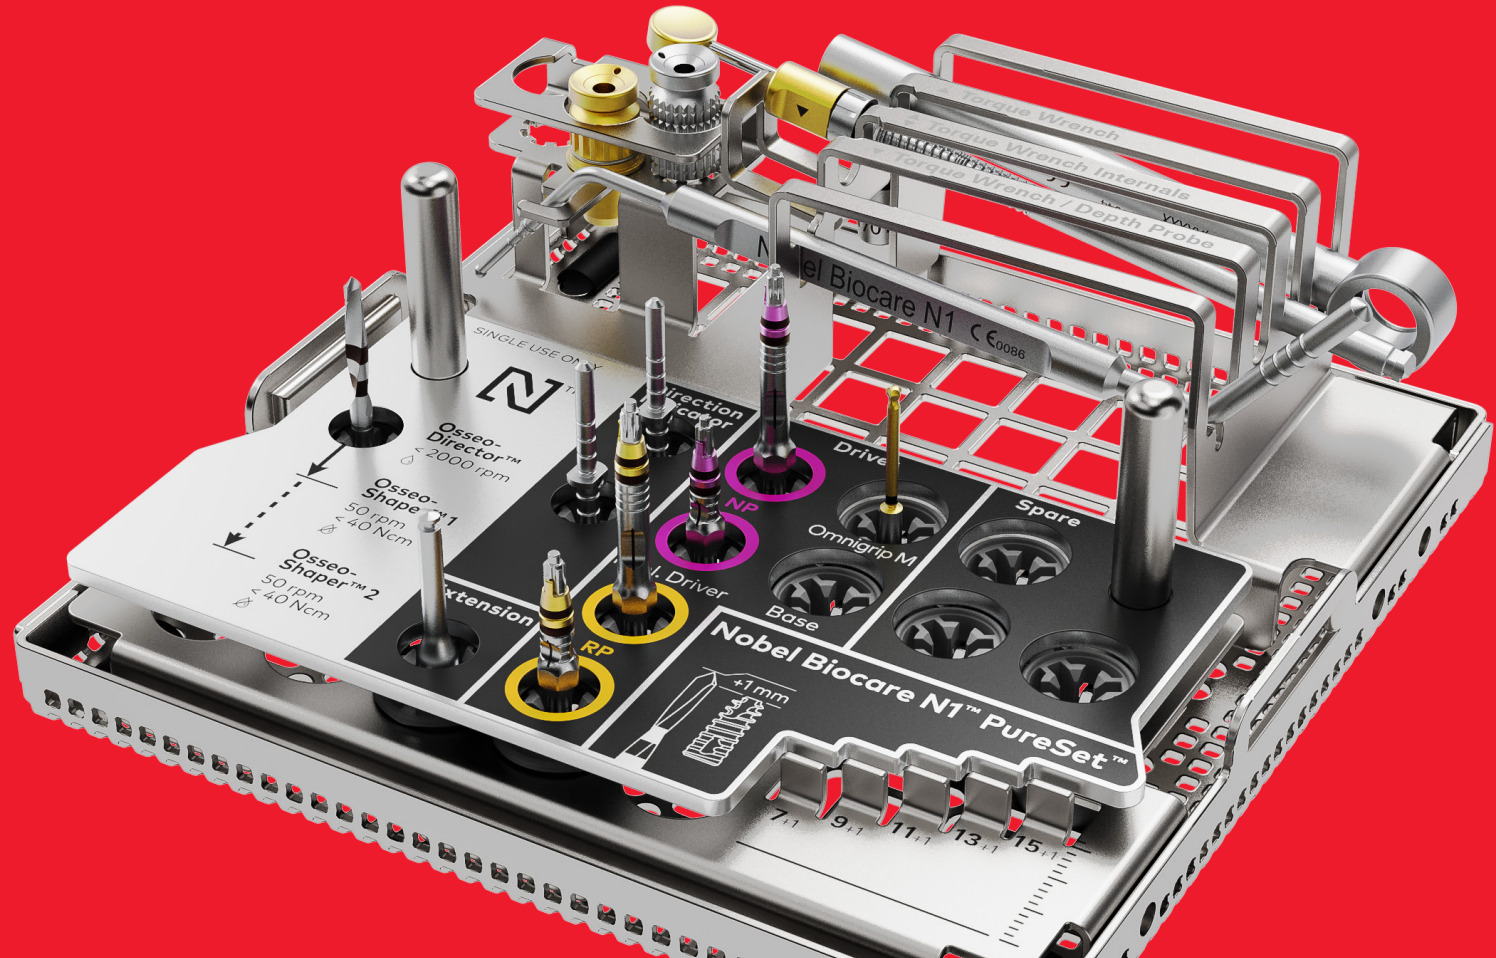

¹ I PureSet Tray sono realizzati in acciaio a parte le piastre e gli occhielli.
